## step-by-step

- To make our Door Knob Hanger we used Foam Sheets 089441.
- Simply draw the desired shape that you would like and carefully cut this out. Remember to cut out a circle so you can hang on your door! Our circle is 5cm wide.
- To decorate the Hanger we used the Foam Sheets 089441. You can be as creative as you like with this. You can draw a scene, make Dad's face, or create colourful patterns! Carefully cut out your designs and glue these onto the Hanger using Kids PVA Glue 085746.
- We also suggest:
