## step-by-step

- To begin we assembled a White Fold Up Basket then covered it with PVA glue and attached wadding to the entire outside of the basket.
- Next we cut a circle from cover paper and covered it in wadding, to form the bunny's face.
- Then we cut two ear shapes from white cover paper and glue these to the back of the Bunny's head. We added some wadding to the outside of the bunny's ears and used Kindy Glitz to add some sparkle to the centre.
- Now it is time to decorate the Bunny's Face. We attached two black Wiggle Eyes, a pink Pastel Pom Pom and some white chenille stems with Kids PVA Glue. We then added a mouth that we cut from black cover paper.

Your cute little basket is now complete. You might like to add some Shredded Cellophane 302265 to protect your eggs.
