

To get started you will need...

- Christmas Transparent Plastic Beads 260778
- Skinny S'getti 105585
- Kindergarted Scissors 147553

step-by-step

- Make a special gift for Mum or a friend this Christmas by threading Christmas Transparent Plastic Beads onto Skinny S'getti. Try different sequences for different effects.
- To make the drop section of the necklace we simply tied a knot in the end of a piece of Skinny S' getti.
- We then threaded an a small clear round bead followed by a heart shape bead, then another small bead followed by another heart, then on top we put a slightly larger clear bead and tied another knot.
- Next we tied this sequence of beads on to the centre of the necklace that we had made.
- Don't forget to tie the ends of the necklace but leave the ends free so that it can be tied around someones neck.
