## step-by-step

- Cut shapes from the Acrylic Felt Sheets to add to your Felt Christmas Stocking (see pics). It might be easier if you draw the shapes on first and then cut them out.
- Personalise your stocking by writing your name in big block letters onto your felt sheet and cut them out. Use Kids PVA Glue or Sew No More to attach your shapes and letters.
- Wait for the glue to dry and then add Christmas Bells. Attach them by making a small hole in the felt and thread them on with Metallic Yarn.

if you like this **craftactivity** you might like the wire mesh ornaments.
