

To get started  
you will need...

- Silver Beading Wire  
216911
- Kindergarten Scissors  
147553
- Silver Metallic Yarn  
044107

## step-by-step

- Cut a length of Silver Beading Wire that will fit around your wrist.
- Thread the desired colour of Glass Beads onto another longer length of Silver Beading Wire. After threading on each bead, wrap the wire around the first piece of wire you cut. This will hold the Glass Beads in place.
- Continue to do this until your bracelet is filled with Glass Beads.
- Create a loop at the start and end of your bracelet with Silver Beading Wire.
- Thread a 20cm piece Silver Metallic Yarn through each loop and secure in place with a knot.
- Cut the Silver Metallic Yarn in half and tie a pretty bow. This will hold your bracelet on your wrist.
- Your Glass Bead Bracelet is now complete. Try experimenting with different coloured Glass Beads!
