

To get started
you will need...

- Coloured Cellophane 001149
- Metallic Yarn 206987
- Kindy Glitz 015537
- Kids PVA Glue 085746
- Kindergarten Scissors 147553

step-by-step

- Cut out a circle using Cellophane. You can make this circle as big as you choose.
- Cut a piece of Metallic Yarn longer than the circle and using Kids PVA Glue, glue it onto the Cellophane with one piece hanging off the edge of the circle. Curl the end of the Metallic Yarn to make a loop.
- Cut another length of Metallic Yarn and use Kids PVA Glue to glue it across the first pieces to form a cross.
- Cut another 2 pieces of Metallic Yarn, the length of the diameter of the circle and glue them on top of the first two pieces of string to form an 'X' shape.
- Decorate the snowflake with Kindy Glitz. Your snowflake is now ready to use as a decoration.
- Try experimenting with different coloured Cellophane and Metallic Yarn.
